**8th International Congress
on Vascular Access**
April 25–27, 2013
Prague, Czech Republic

INVITATION

Allow me to draw your attention to the **8th congress of the Vascular Access Society** the most prestigious international congress on vascular access that will take place in **Prague on 25-27 April 2013.**

Vascular access care, use and research is one of the most interdisciplinary topics in modern medicine. It attracts vascular surgeons, nephrologists, interventional radiologists, ultrasonographers, cardiologists and physiologists, but also dialysis nurses, technicians etc. With increasing participation numbers, Vascular Access Society has established congresses of great scientific standing. And its congresses provide a special opportunity for sharing experience.

Prague, however, has much more to offer to the congress participants. Its historical centre ranks among the most beautiful city centres worldwide thanks to a picturesque combination of various architectural styles – Gothic, Renaissance, Art Nouveau, Cubism, but especially Baroque.

The congress will take place at the Prague Congress Centre, which is close to the city centre and offers a magnificent view of the Prague Castle.

In case you will bring to the congress the group of 50 and more paying participants the translation from English to your language will be available in the Plenary Room.

See you in Prague!

Jan Malík
Congress President
